

Project: Clearfield wheat trial
 Trial: RH1218
 District: Billa Billa

Variety: Elmore CL
 Soil Type: Red chromosol

Planting date: 1/06/2012

Application date (T1): 9/07/2012

Weed size at application: Seedling

Weed number per sq.m. at application: approx. 5/m²

Crop stage: GS15

Disclaimer:

This document is based on the results from an individual trial and may contain experimental use patterns that are currently off-label. **This document does not provide any interpretation and should not be taken as an endorsement of any unregistered use pattern.**

Professional advice should be sought for specific recommendations to ensure access to the most up to date information and knowledge.

Any product referred to in this document must be used strictly as directed, and in accordance with all label or permit instructions. Always consult the label prior to use.
